20
YEARS

20 Years of SATA UK
JOIN THE CELEBRATION

SATA UK proudly celebrates its 20th year, marking two decades of growth, innovation, and commitment to the UK market.

Established in June 2006 as the first direct subsidiary of SATA GmbH, SATA UK was created to support the continued expansion of the brand within the UK and to deliver market-leading customer service and technical support. From the outset, the focus has been on building strong relationships with dealers and end customers whilst providing expert knowledge alongside best in class products.

The journey began with a team of two – Matt Stevens, Managing Director, and Russell Jacob, Area Technical & Sales Manager – with Matt still leading the UK operation and Russell remaining an integral part of the team. Due to constantly increasing demand, SATA UK has grown into a team of seven, alongside continued support from our colleagues in Germany, ensuring the highest standards of service and support are consistently maintained.

In 2020, SATA UK reached another key milestone, relocating to a UK-based logistics centre. The new facility includes dedicated warehouse space, alongside a fully equipped training centre, enabling next day distribution, hands-on demonstrations, technical training, and enhanced customer engagement.

Over the past 20 years, SATA UK has established itself as a trusted partner within the industry, continually evolving to meet the needs of the UK market while upholding the quality and precision synonymous with SATA.

20 YEARS 226 SPRAY GUNS

To mark this special occasion, SATA UK has produced a strictly limited run of just 226 exclusive Union Flag jet X DIGITAL pro spray guns, created specifically to commemorate its 20th anniversary.

Each spray gun has been individually laser etched with its unique production number, highlighting its exclusivity and reinforcing its status as a true collector's piece. Featuring a distinctive Union Flag design, this special edition reflects both SATA UK's heritage and its strong presence within the UK market.

Every unit is presented as part of a premium package, carefully assembled to reflect the quality and attention to detail synonymous with the SATA name. The set includes a high quality presentation case which includes a jet X in this unique design, a SATA adam X Pro Digital Gauge, a certificate of authenticity, a laser-etched gun stand, ensuring both practicality and collectability.

**WE ARE JUST
GETTING STARTED.**

This exclusive release not only celebrates 20 years of SATA UK, but also showcases the precision engineering, innovation, and craftsmanship that continue to define SATA products today. With such a limited production, each piece represents a unique part of SATA UK's story – past, present, and future.

And as we mark this milestone, one thing remains clear – we are just getting started.
